iVT International

Off-Highway Annual Review

If your components and technologies are used in off-highway vehicles, then this edition of iVT International provides an excellent platform from which to promote them. iVT Off-Highway Annual Review acts as a showcase of the latest components and technologies available to off-highway OEMs. Detailed editorial features cover a wide range of subjects, from advanced concept designs to component engineering and manufacturing technology. A variety of components are featured, although particular emphasis is placed on drivetrains, mobile hydraulics and driver controls, cab ergonomics and styling. Circulated worldwide, the Off-Highway Annual Review provides vehicle manufacturers with an unrivalled guide to the latest technologies, while component manufacturers benefit from an effective marketing opportunity.

iVT International

Quarterly Magazine

Distributed worldwide, the quarterly iVT International magazine provides more topical, news-driven coverage of the industrial vehicle market and examines the design and engineering of all classes of vehicles covered by the annual review. iVT magazine contains case studies on newly launched vehicles, together with industry news, interviews and market reports. Regular technology updates focus on particular component groups, examining new product and technology advances in areas such as mobile hydraulics, drivetrains, vehicle design, electronics, electrification and automation.

Contributions from industry specialists focus on the latest designs and engineering technologies that enhance vehicle development. Available four times a year, iVT magazine provides a regular platform from which to promote your company to OEMs worldwide.

iVT China

Annual Review

The ideal publication in which to advertise to the vitally important Chinese market. 5,000+ copies are distributed to senior engineers and designers at China-based OEMs manufacturing all categories of industrial vehicles. Printed in Mandarin with free editorial and advertising translation available.

- 180mm (width) x 132mm (height) (7in x 51/4in). No bleed option

**Format:**
All material should be supplied electronically by email

**ADVERTISER EDITORIAL OPPORTUNITIES**

**Technical Articles**
A limited amount of space is available for advertisers to submit objective 600 word technical articles. These editorial positions are allocated on a first-come, first-served basis, and must run within the same issue an advertisement is run.

**Bulletin Boards**
Again, subject to the availability of space, positions for concise technical press releases of 200 words (with one colour photograph) are available free of charge to advertisers. They are published in the four issues of iVT International quarterly magazine only.

*Please note: Technical features and bulletin board entries appear subject to the editor’s approval, are published in the house style and will be edited to ensure style is consistent throughout the publication. Limited space necessitates that where editorial contributions exceed maximum word count they will be shortened. Technical features may be affected in terms of specified page layout if text and pictures fail to meet size and/or quality requirements. Picture quality is required at 300dpi; size should ideally be no smaller than 15cm wide.
