THE iVT SERIES

iVT International Quarterly Magazine
Distributed worldwide, the quarterly iVT International magazine provides more topical, news-driven coverage of the industrial vehicle market and examines the design and engineering of all classes of vehicles covered by the annual review. iVT magazine contains case studies on newly launched vehicles, together with industry news, interviews and market reports. Regular technology updates focus on particular component groups, examining new product and technology advances in areas such as mobile hydraulics, drivetrains, vehicle design, electronics, electrification and automation. Contributions from industry specialists focus on the latest designs and engineering technologies that enhance vehicle development. Available four times a year, iVT magazine provides a regular platform from which to promote your company to OEMs worldwide.

iVT International Off-Highway Annual Review
If your components and technologies are used in off-highway vehicles, then this edition of iVT International provides an excellent platform from which to promote them. iVT Off-Highway Annual Review acts as a showcase of the latest components and technologies available to off-highway OEMs. Detailed editorial features cover a wide range of subjects, from advanced concept designs to component engineering and manufacturing technology. A variety of components are featured, although particular emphasis is placed on engines, drivetrains, mobile hydraulics and driver controls, cab ergonomics and styling. Circulated worldwide, the Off-Highway Annual Review provides vehicle manufacturers with an unrivalled guide to the latest technologies, while component manufacturers benefit from an effective marketing opportunity. Worldwide distribution.

iVT China Annual Review
The ideal publication in which to advertise to the vitally important Chinese market. 5,000+ copies are distributed to senior engineers and designers at China-based OEMs manufacturing all categories of industrial vehicles. Printed in Mandarin with free editorial and advertising translation available.

PUBLISHING SCHEDULE

iVT International Quarterly Magazine – March

iVT Expo preview + Hydraulics + Connectivity
Principal Editorial Features: Preview of iVT Expo, 29-30th June 2022, Cologne, Germany. One of the leading industry gatherings in the world. The issue will cover new construction vehicle launches. Feature on the impact of electrification on hydraulics. New developments in connectivity are examined with special emphasis on CANbus and telematics.

iVT International Quarterly Magazine – June

Electronics issue + Lift Truck supplement + Construction vehicles
Principal Editorial Features: Advances in off-highway electronics, anticipating market trends in the year ahead and how electronic advancement allied to automation is optimising the industry. All the latest lift-truck developments with a review of new technology in the sector. Plus new construction vehicle launches and a leading OEM interview offering industry insight.

iVT China Annual Review 2023
Published in Mandarin Chinese and distributed to Chinese engineers and designers at OEMs in the People’s Republic of China

Principal Editorial Features: All major product groups are featured plus an important preview of the Bauma China exhibition, Shanghai, 22nd-25th November 2022. The number one trade fair for construction machinery and a vital gateway to the Chinese market.

iVO: Off Highway Annual Review 2023 edition – October

Major product review 2022 + Design Challenge
Principal Editorial Features: A view of the future through the eyes of leading designers in the Design Challenge. See the industrial vehicles that will change the future as conceived by today’s talented industrial designers. Share their experience as they confront the challenges of how to make tomorrow’s industrial vehicles even better. In addition, all product groups are featured: Engines; Powertrains; Fluid Power; Electronics; Ergonomics and Styling; Manufacturing and Exhibitions.

iVT International Quarterly Magazine – November/December

Electrification issue + new vehicle case studies + latest in ISObus
A major in-depth review of the industry’s irresistible movement to electrification - the responding supplier technology and its implications. Plus profiles of the latest electric vehicles being developed for the market by OEMs.

* Please note that although we try extremely hard to avoid changes to the publishing schedule, they can sometimes occur. In the event of change, publishing dates, final copy dates and editorial features may be subject to revision by the editor.
First published in 1993, and now sent six times a year to just over 15,000 senior managers, designers, key specifiers and decision makers throughout the global industrial vehicle industry, Industrial Vehicle Technology International is the leading publication for technology and innovation in off-highway and materials handling vehicle development.

Europe 59.9%, North America 28.7%, Asia/Pacific 11.6%, Rest of World 2.7%.

Full-colour interactive digital version also available online.

**DIGITAL EDITION SPONSORSHIP**

**PREMIUM OPPORTUNITY**

At [www.ivtinternational.com](http://www.ivtinternational.com) you can read and download the latest digital versions of the [iVT International](http://www.ivtinternational.com) magazine series as well as archived issues from the past. In September 2020 iVT launched its all-new digital edition. This fully interactive, smart-device optimised interface has already created a large increase in the numbers of readers choosing to access iVT digitally (over 46,000 visits and more than 186,000 page views for the November edition). It provides a richer editorial experience through added audio and video content, as well as extra words and images in certain articles. However, the opportunities for enhanced content aren’t just limited to editorial. Each edition one print advertiser, on a first-come-first-served basis, will be able to secure the position of our Digital Edition Sponsor. This premium advertising opportunity will consist of the following forms of digital promotion...

1. A ‘presentation page’ ad. This full page ad will appear directly opposite our front cover on the digital PDF replica of the issue
2. Two ‘interstitial ads.’ These ads pop up automatically between pages as you flick through the digital edition. These will be mirrored by ‘lily ads’ which appear in the Smart View, optimised for mobile devices
3. A logo and sponsor message in the email blast sent by iVT on digital publication
4. The opportunity to augment ads with video content

**YOU GET…**

- A ‘presentation page’ ad. This full page ad will appear directly opposite our front cover on the digital PDF replica of the issue
- Two ‘interstitial ads.’ These ads pop up automatically between pages as you flick through the digital edition. These will be mirrored by ‘lily ads’ which appear in the Smart View, optimised for mobile devices
- A logo and sponsor message in the email blast sent by iVT on digital publication
- The opportunity to augment ads with video content

**Full-colour interactive digital version also available online.**

All copies are sent free of charge and on an individually named, fully registered basis to directors, chief engineers, designers, senior managers and engineers responsible for the design and development of industrial vehicles and those concerned with component testing and purchasing. The circulation is continually updated as additional engineering personnel register for copies. The IVT circulation research team is in constant contact with OEMs to ensure copies reach the industry decision makers – the personnel responsible for making and influencing buying decisions.

**Text area:** 180mm (width) x 270mm (height) (7in x 10 1/2in)

**Half page:** 180mm (width) x 132mm (height) (7in x 5 1/4in). No bleed option

**Format:** All material should be supplied electronically by email

ADVERTISER EDITORIAL OPPORTUNITIES

**Technical Articles**

A limited amount of space is available for advertisers to submit objective 600 word technical articles. These editorial positions are allocated on a first-come, first-served basis, and must run within the same issue an advertisement is run.

**Bulletin Boards**

Again, subject to the availability of space, positions for concise technical press releases of 200 words (with one colour photograph) are available free of charge to advertisers. They are published in the four issues of iVT International quarterly magazine only.

*Please note: Technical features and bulletin board entries appear subject to the editor’s approval, are published in the house style and will be edited to ensure style is consistent throughout the publication. Limited space necessitates that where editorial contributions exceed maximum word count they will be shortened. Technical features may be affected in terms of specified page layout if text and pictures fail to meet size and/or quality requirements. Picture quality is required at 300dpi; size should ideally be no smaller than 15cm wide.

“An invaluable benchmarking tool for the product engineering community”
Dr Klaus G Hoehn, vice president advanced technology and engineering
DEERE & COMPANY

“For a specialist OEM, it’s the essential reference for sourcing partnerships with component suppliers”
Helmut Kanzler, vice president development
KASSBOHRER GELANDEFAHRZEUG

“iVT is a reliable product that is leading the industry 20 years after its creation, still going strong and with the vision to continue beyond 2033”
Brett Wood, president & CEO
TOYOTA MATERIAL HANDLING NORTH AMERICA

“A truly exceptional magazine”
William J Montwieler executive director
