THE iVT SERIES

iVT International

Quarterly Magazine

Distributed worldwide, the quarterly **iVT International** magazine provides more topical, news-driven coverage of the industrial vehicle market and examines the design and engineering of all classes of vehicles covered by the annual review. **iVT** magazine contains case studies on newly launched vehicles, together with industry news, interviews and market reports. Regular technology updates focus on particular component groups, examining new product and technology advances in areas such as mobile hydraulics, drivetrains, vehicle design, electronics, electrification and automation. Contributions from industry specialists focus on the latest designs and engineering technologies that enhance vehicle development. Available four times a year, **iVT** magazine provides a regular platform from which to promote your company to OEMs worldwide.

iVT International

Off-Highway Annual Review

If your components and technologies are used in off-highway vehicles, then this edition of **iVT International** provides an excellent platform from which to promote them. **iVT Off-Highway Annual Review** acts as a showcase of the latest components and technologies available to off-highway OEMs. Detailed editorial features cover a wide range of subjects, from advanced concept designs to component engineering and manufacturing technology. A variety of components are featured, although particular emphasis is placed on engines, drivetrains, mobile hydraulics and driver controls, cab ergonomics and styling. Circulated worldwide, the **Off-Highway Annual Review** provides vehicle manufacturers with an unrivalled guide to the latest technologies, while component manufacturers benefit from an effective marketing opportunity. Worldwide distribution.

iVT China

Annual Review

The ideal publication in which to advertise to the vitally important Chinese market. 5,000+ copies are distributed to senior engineers and designers at China-based OEMs manufacturing all categories of industrial vehicles. Printed in Mandarin with free editorial and advertising translation available.

PUBLISHING SCHEDULE

IVT3 2022 **September**

iVT International Quarterly Magazine – September

Bauma Munich preview + EIMA Bologna preview + alternative propulsion systems

Major preview of the incomparable Bauma Munich exhibition, October 24-30th. The world's leading trade fair for construction machinery, building material machines, mining machines, construction vehicles and equipment. Important preview of the agricultural event EIMA Bologna, November 9 – 13 featuring new agricultural vehicles and components. In addition key articles reviewing the most recent alternative fuel propulsion systems - plus the latest hydrogen developments, both fuel cell and combustion.

IVT China **October**

iVT China Annual Review 2023

Published in Mandarin Chinese and distributed to Chinese engineers and designers at OEMs in the People's Republic of China

Principal Editorial Features: All major product groups are featured plus an important preview of the Bauma China exhibition, Shanghai, 22nd-25th November 2022. The number one trade fair for construction machinery and a vital gateway to the Chinese market.

DIGITAL EDITION SPONSORSHIP PREMIUM OPPORTUNITY

At www.ivtinternational.com you can read and download the latest digital versions of the **iVT International** magazine series as well as archived issues from the past. In September 2020 iVT launched its all-new digital edition. This fully interactive, smart-device optimised interface has already created a large increase in the numbers of readers choosing to access iVT digitally (over **46,000 visits** and more than **186,000 page views** for the November edition). It provides a richer editorial experience through added audio and video content, as well as extra words and images in certain articles. However, the opportunities for enhanced content aren't just limited to editorial. Each edition one print advertiser, on a first-come-first-served basis, will be able to secure the position of our Digital Edition Sponsor. This premium advertising opportunity will consist of the following forms of digital promotion...

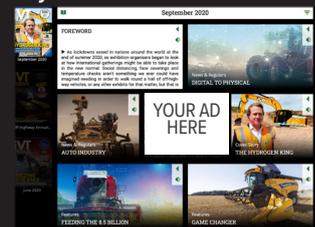

1. A 'presentation page' ad. This full page ad will appear directly opposite our front cover on the digital PDF replica of the issue
2. Two 'interstitial ads.' These ads pop up automatically between pages as you flick through the digital edition. These will be mirrored by 'lily ads' which appear in the Smart View, optimised for mobile devices
3. A logo and sponsor message in the email blast sent by iVT on digital publication
4. The opportunity to augment ads with video content

YOU GET...

Augmented content

All copies are sent free of charge and on an individually named, fully registered basis to directors, chief engineers, designers, senior managers and engineers responsible for the design and development of industrial vehicles and those concerned with component testing and purchasing. The circulation is continually updated as additional engineering personnel register for copies. The **iVT** circulation research team is in constant contact with OEMs to ensure copies reach the industry decision makers – the personnel responsible for making and influencing buying decisions.

ADVERTISER EDITORIAL OPPORTUNITIES

Technical Articles

A limited amount of space is available for advertisers to submit objective 600 word technical articles. These editorial positions are allocated on a first-come, first-served basis, and must run within the same issue an advertisement is run.

Bulletin Boards

Again, subject to the availability of space, positions for concise technical press releases of 200 words (with one colour photograph) are available free of charge to advertisers. They are published in the four issues of iVT International quarterly magazine only.

*Please note: Technical features and bulletin board entries appear subject to the editor's approval, are published in the house style and will be edited to ensure style is consistent throughout the publication. Limited space necessitates that where editorial contributions exceed maximum word count they will be shortened. Technical features may be affected in terms of specified page layout if text and pictures fail to meet size and/or quality requirements. Picture quality is required at 300dpi; size should ideally be no smaller than 15cm wide.

“An invaluable benchmarking tool for the product engineering community”

Dr Klaus G Hoehn, vice president advanced technology and engineering
DEERE & COMPANY

“For a specialist OEM, it's the essential reference for sourcing partnerships with component suppliers”

Helmut Kanzler, vice president development
KÄSSBOHRER GELÄNDEFAHRZEUG

“iVT is a reliable product that is leading the industry 20 years after its creation, still going strong and with the vision to continue beyond 2033”

Brett Wood, president & CEO
TOYOTA MATERIAL HANDLING NORTH AMERICA

“A truly exceptional magazine”

William J Montwieler, executive director
INDUSTRIAL TRUCK ASSOCIATION USA
